Export Certificates Report

2006

Approved by:

Sarah Hanson U.S. Embassy

Prepared by:

Jana Mikulasova

Report Highlights:

This report covers only export certificates required by the Slovak Republic, which differ from EU export certificate requirements.

Includes PSD Changes: No Includes Trade Matrix: No Unscheduled Report Vienna [AU1]

I. EXPORT CERTIFICATES REQUIRED BY SLOVAKIA

Slovak certificates for imports of products from third countries that do not have a harmonized certificate as provided by the European Commission include the following:

Product	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
NEW! Frozen dog semen	Health Certificate	-	This certificate is for veterinary purposes only and must accompany the consignment	State Veterinary and Food Administration (Ministry of Agriculture)
Aquarium fish and vivarium animals	Health Certificate	-	This certificate is for veterinary purposes only and must accompany the consignment until it reaches the border inspection post.	State Veterinary and Food Administration (Ministry of Agriculture)
Honey and bee products	Health Certificate	Attestation of wholesomeness	This certificate is for veterinary purposes only and must accompany the consignment until it reaches the border inspection post.	State Veterinary and Food Administrati on (Ministry of Agriculture)
Pigeons intended for temporary import	Health Certificate	-	This certificate is for veterinary purposes only and must accompany the consignment until it reaches the border inspection post.	State Veterinary and Food Administrati on (Ministry of Agriculture)
Dogs and cats	Health Certificate	-	This certificate is for veterinary purposes only and must accompany the consignment until it reaches the border inspection post.	State Veterinary and Food Administrati on (Ministry of Agriculture)
Domestic dogs, cats and ferrets	Veterinary Certificate for domestic dogs, cats and ferrets entering the European Community for	This certificate must be accompanied by supporting documentation, or a certified copy thereof, including the	This certificate is for veterinary purposes	State Veterinary and Food Administrati on (Ministry of

movements	he animal concerned,	
	vaccination details and	
	the result of the	
	serological test.	

For detailed information see copies of the certificates in report Appendix.

II. GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS

The original certificate needs to accompany the product at the time of entering the EU. Certificate cannot be applied to multiply shipments. A separate certificate must be provided for each consignment.

Even if the exporter has a Suppliers or Manufacturers Export Declaration as proof of compliance, the original Health Certificate is still needed. Because of the same reason the foreign country cannot accept an U.S. State issued export certificate.

The export certificates have to be provided in the language of the country of EU entry and also of the final destination country (=in Slovak language). The forms (see Appendix) are bilingual.

As soon as there are harmonized EU certificates, Slovakia will derogate its current export certificates.

Slovakia has implemented EU regulations regarding export certificates. For information on EU export certificates, please see GAIN Report E35010.

III. OTHER CERTIFICATION/ACCREDITATION REQUIREMENTS

Plants and plant products

Slovakia does not require any specific certificates for plant products. Regulations of the European Union apply. Slovakia has set national limits only for mineral waters and food supplements (e.g. vitamis); therefore the importer of these products has to apply at the Public Health Authority.

Organic products

For organic production in Slovakia, EU regulations and the Slovak Act on Ecological Farming no. 421/2004 apply. Organic agriculture and products are under control of the Central Institute for Control and Testing in Agriculture (see chapter Relevant Contacts). Organic products in Slovakia carry the "EKO" label, see picture below.
